## Profile

---

Full-Stack Developer skilled in React, Next.js, Node.js, and TypeScript with experience in building scalable MERN applications, APIs, real-time systems, and backend integrations. Developed projects like TuitionDekho, Web Cab, and MERN Chat App. Contributed to a bank-sponsored hackathon by building backend and AI/ML-based fraud detection modules. Pursuing B.Tech CSE (2026).

## Professional Experience

---

### Full Stack MERN Training, Find Future, Mohali

06/2023 – 07/2023

Mohali, Punjab

- Developed full-stack applications using MongoDB, Express.js, React, and Node.js.
- Built API-driven features, user authentication, and database integrations.
- Created reusable UI components and implemented REST API workflows.
- Worked with Git, deployment tools, and team-based project execution.

## EDUCATION

---

### Bachelor in Computer Science

2022 – 2026

Pursuing a Bachelor's in Computer Science Engineering, expected graduation in 2026.

### Higher School

2020 – 2022

Government Senior Secondary School, PAU Ludhiana

**Score: 90.2%**

### Matric School

2012 – 2020

Holy Child Foundation School, Ludhiana

**Score: 90%**

## Projects

---

### TuitionDekho (MERN Stack)

07/2025 – Present

- Developed a student-teacher platform with authentication, tutor search, booking workflow, and real-time notifications.
- Built backend APIs, database models, and integrated booking logic.
- Tech Stack: React, Node.js, Express, MongoDB, JWT.

### Link Tree Clone (Next.js + MongoDB)

03/2025 – Present

- Built a customizable link-sharing platform with dynamic profiles and secure user accounts.
- Used server-side rendering for performance and seamless navigation.
- Tech Stack: Next.js, MongoDB, TailwindCSS.

### Web Cab (React +Firebase +Razorpay )

01/2025 – 06/2025

- Led a team to build a cab booking platform for users and travel vendors.
- Implemented backend workflows, Razorpay payments, and vendor-user notification system.
- Tech Stack: React, Firebase, Razorpay, Firebase.

## **Flutter App (Dart + Node.js backend)**

06/2025 – Present

- Developed AI/ML-based fraud detection module for a finance protection app in a bank-sponsored hackathon.
- Built backend APIs and research logic for fraud detection workflows.
- Tech Stack: Flutter, Dart, Node.js, MongoDB, AI models.

## **Technical Skills**

---

### **Frontend**

React, Next.js, JavaScript (ES6+), TypeScript, Figma / UI-UX

### **Backend**

Node.js, Express, Firebase, MongoDB

### **Databases & Messaging**

Redis, Kafka

### **DevOps / Tools**

Docker, Git, Postman, Razorpay

### **Languages**

C, C++, Python , Javascript,Typescript, HTML, CSS

## **Certificates and Activity**

---

### **Certifications**

- Deloitte Job Simulation in March 2025
- Nestle E-Learning in Feb 2025

### **Awards/Activities**

- participate in hackathon organize by Punjab and Sind Bank
- Works as team Leader in many projects

## **Languages**

---

- English — Proficient
- Hindi-Native
- Punjab-Native
